

Dear Patient:

As of 1/2/2014, Sonoma Valley Community Health Center will be required to have photo identification for you contained within your Medical Record. This is a requirement of both the State of California and the Federal Government in an effort to ensure the security of your medical record and all of the information contained within it.

We will accept any photo identification that you have. We just need a Photo Identification that has your Name and Picture on it.

The following are just a few of the types:

Drivers License

California Identification

Library card

Passport

Bank Card

Student Identification

Employee Badge

Additionally we will be asking all patients to fill out additional information as this is a requirement for Sonoma Valley Community Health Center to continue to provide and maintain the wide array of services we offer.

Thank you in advance for your help on this.
